Fields: Labor Economics, Economics of Education, Applied Microeconomics.

EDUCATION

Ph.D. in Economics, University of Colorado Boulder *2022 – 2027 (expected)*

Committee: Prof. Brian Cadena (chair), Prof. Terra McKinnish, Prof. Richard Mansfield, Prof. Chloe East

M.Sc. in Economics, University of Colorado Boulder *2022 – 2024*

B.S. in Economics, East Carolina University *2020 – 2022*

JOB MARKET PAPER

Unemployment Insurance Generosity and Enrollment into Postsecondary Education. *Abstract:*

This paper examines whether reductions in unemployment insurance (UI) generosity affect enrollment in postsecondary education. Between 2011 and 2016, nine U.S. states reduced the maximum duration of UI benefits, creating variation in access to unemployment compensation. Using institution-level enrollment data from the Integrated Postsecondary Education Data System (IPEDS) from 2007–2019 and a stacked difference-in-differences design, I estimate the effect of these policy changes on enrollment at postsecondary institutions. Results indicate that UI benefit reductions increased certificate program enrollment by approximately 5.8 percent, but had no measurable effect on degree-granting institutions. The findings suggest that reduced UI generosity may encourage displaced workers to invest in short-term occupational training, highlighting postsecondary certificate programs as an important educational response to changes in labor market policy.

WORKING PAPERS

Labor Supply Effects of Universal Licensing Recognition Laws. *Abstract:*

Occupational licensing creates barriers to entry and mobility for many occupations in the United States. These barriers create market inefficiencies and reduce welfare, as well as potentially deterring people from entering occupations they would otherwise join. In this paper, I study whether Universal Licensing Recognition laws that reduce barriers to mobility affect the number of people entering licensed professions. I find that the effects of these laws are ambiguous and centered around zero.

TEACHING

University of Colorado Boulder

Instructor of Record:

Math Tools for Economists I	*Fall 2024, Spring 2025*
Principles of Macroeconomics	*Fall 2026*

Teaching Assistant:

Principles of Microeconomics	*Fall 2022, Fall 2025*
Principles of Macroeconomics	*Spring 2023*
Microeconomic Theory I and Probability Theory	*Fall 2023*
Microeconomic Theory II and Macroeconomic Theory II	*Spring 2024*
Intermediate Microeconomics	*Spring 2026*
Statistical Methods with R	*Summer 2026*

RESEARCH ASSISTANTSHIPS

Research assistant to Prof. Carly Urban, Montana State University *Summer 2022 – Spring 2023*
Research assistant to Prof. Taylor Jaworski, University of Colorado Boulder *Summer 2023*
Research assistant to Prof. Brian Cadena, University of Colorado Boulder *Summer 2024*

AWARDS AND FELLOWSHIPS

Leslie Whittington Memorial Fellowship for Excellence in Economics *2023*
Richard C. Meckley Graduate Fellowship *2024*
Graduate Award for Public Policy Research *2025*
Timothy D. Tregarthen Graduate Endowment *2026*

Software: Stata, R, SAS, LaTeX
